

Letter of support

I am pleased to confirm our full support to the Swedish Ski Association when announcing their candidacy for hosting the 2027 FIS Nordic World Ski Championship in the Falun municipality, Dalarna County.

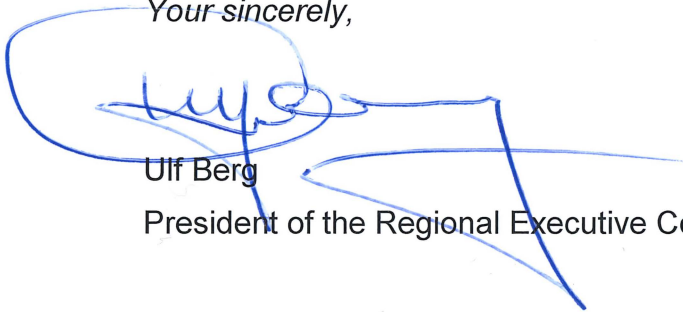

It is with great pride and humility that Region Dalarna welcomes such an outstanding international event. The responsibility for hosting the World Ski Championship is a great opportunity for the region and will indeed be important to the entire Region of Dalarna.

The responsibility for the medical care during the World Ski Championship will be a great challenge and opportunity for Region Dalarna.

Dalarna and Falun successfully hosted the World Ski Championship in 2015. I am convinced that our knowledge and experiences from that arrangement will guarantee an equally well-organized World Ski Championship in 2027.

Region Dalarna would like to state its unreserved support for submitting an application to be the host of the World Ski Championships 2027.

Your sincerely,

Ulf Berg

President of the Regional Executive Committee
